Quality policy

Krylbo Verkstäder manufacture advanced welded and processed/machined construction projects for the national and international subcontract manufacturing market.

We shall supply our customers with prompt services and products of the appropriate quality, with a service minded approach throughout.

At Krylbo Verkstäder we achieve this by:

- Maintaining a high and consistent quality of our products
- Being honest and reliable in our business transactions
- Creating long-term relationships with our customers, suppliers and staff
- Fulfilling our obligations with regard to delivery performance and meeting external and internal demands.

In addition we shall be:

- Flexible and adaptable with regard to our customers' demands

At the same time, we shall always maintain Krylbo Verkstäder's good image and work with continuous improvements, which affect the entire management system.

Krylbo
